

**ADDENDUM NO. 1
Issued June 8, 2007**

TO

**REQUEST FOR BIDS
FOR
HARTFORD LANDFILL CLOSURE
MSW/INTERIM ASH DISPOSAL AREA
(RFQ Number 2007E005**

(RFB Issued June 4, 2007)

Note: Bidder is required to acknowledge this and all Addenda in Section 5(a) of the Bid Form.

The following is the first addendum being issued as part of the bid solicitation by the Connecticut Resources Recovery Authority ("CRRA") for the subject project. All bidders must acknowledge receipt of this addendum in the appropriate space on the Bid Form in order for the bid to be deemed responsive. This addendum is divided into several parts and reference is made to additional and revised documents being issued as part of this addendum. The bidders are responsible for completely reviewing the addendum and shall adjust their bid based upon the original Bid Documents and the changes incorporated by this addendum.

1. LIST OF NEW CONTRACT DRAWINGS PROVIDED AS PART OF ADDENDUM #1

All drawings listed below are new drawings that have been added to the Contract Documents. Drawings have a number "1" within the revision block with the date of June 8, 2007.

- (a) Drawing CU-101 – Force Main Relocation Plan (Added)

This drawing is a new drawing added to the Contract Documents, which indicates the layout for the relocation of the landfill leachate force main system.

- (b) Drawing CU-102 – Electrical Relocation Plan (Added)

This drawing is a new drawing added to the Contract Documents. Two types of layouts are provided for electrical service to the leachate pump system. The Base Bid payment item includes all work required for an underground relocation of the electrical service. The Alternate payment item includes all work required for a complete overhead electrical system relocation, complete in place.

- (c) Drawing CU-103 – Electrical Relocation Plan (Added)

This drawing is a new drawing added to the Contract Documents. Two types of layouts are provided for electrical service to the leachate pump system. The Base Bid payment item include all work required for an underground relocation of the electrical service. The Alternate payment item includes all work required for a complete overhead electrical system relocation, complete in place.

- (d) Drawing CU-501 – Force Main Relocation Details (Added)

This drawing is a new drawing added to the Contract Documents. The details indicate the work required for relocating the landfill leachate force main system.

- (e) Drawing CU-502 – Electrical Relocation Details (Added)

This drawing is a new drawing added to the Contract Documents. The details indicate the work required for relocating the electrical service for the leachate pump system. Many of the details are applicable for both the Base Bid and the Alternate payment items.

2. LIST OF NEW TECHNICAL SPECIFICATION PROVIDED AS PART OF ADDENDUM #1

The following referenced specifications are incorporated into the Contract Documents:

- (a) Section 02584 Underground Ducts and Utility Structures
- (b) Section 16010 Summary of Work – Electrical
- (c) Section 16050 Basic Materials and Methods
- (d) Section 16060 Electrical Demolition
- (e) Section 16061 Grounding and Bonding
- (f) Section 16112 Conduit
- (g) Section 16120 Wire and Cable
- (h) Section 16195 Electrical Identification
- (i) Section 16269 Variable Frequency Controllers
- (j) Section 16315 Overhead Electrical Distribution
- (k) Section 16470 Panelboards

These specification sections are new sections that have been added to the Contract Documents and are associated with the relocation of the electrical service for the leachate pump system. Section 02531 "Leachate Force Main System" was included as part of the original issue of the Bid Package.

3. LIST OF SPECIFICATIONS WITH REVISIONS PROVIDED AS PART OF ADDENDUM #1

- (a) Section 00010 Table of Contents

This section includes the new specification sections added to the Contract Documents in this Addendum No. 1.
