The Bid Security of other bidders whom CRRA believes to have a reasonable chance of receiving the award may be retained by CRRA until the earlier of the seventh (7th) day after the Effective Date of the Agreement or ninety (90) days after the bid due date, whereupon the Bid Security furnished by such bidders will be returned. Bid Security with bids that are not competitive will be returned within seven (7) days after the opening of such bids.

A bidder may include additional information as an addendum/appendix to its bid if the bidder thinks that it will assist CRRA in evaluating the bidder's bid. A bidder should not include information that is not directly related to the subject matter of this solicitation.

12. Bid Opening

All bids will be opened at CRRA's convenience on or after the bid due date.

CRRA reserves the right to reject any or all of the bids, or any part(s) thereof, and/or to waive any informality or informalities in any bid or the RFB process for this Project.

13. Bid Evaluation

The award of the contract for the Work will be made, if at all, to the bidder(s) whose evaluation by CRRA results in CRRA determining that such award to such bidder(s) is in the best interests of CRRA. **However, the selection of a bidder(s) and the award of such contract, while anticipated, are not guaranteed.**

CRRA is an Equal Opportunity and Affirmative Action employer and does not discriminate in its hiring, employment, contracting, or business practices. CRRA is committed to complying with the Americans with Disability Act of 1990 (ADA) and does not discriminate on the basis of disability in admission to, access to, or operation of its programs, services, or activities.

13.1 Evaluation Criteria

CRRA will base its evaluation of the bids on price, qualifications, demonstrated skill, ability and integrity of each bidder to perform the Work required by the Contract Documents and any other factor or criterion that CRRA, in its sole discretion, deems or may deem relevant or pertinent for such evaluation.

13.2 Affirmative Action Evaluation Criteria

Bids will also be rated on the bidder's demonstrated commitment to affirmative action. Sections 46a-68-1 to 46a-68-17 of the *Regulations of Connecticut State Agencies* require CRRA to consider the following factors when awarding a contract that is subject to contract compliance requirements:

- (a) The bidder's success in implementing an affirmative action plan (See Question 4 of the Questionnaire Concerning Affirmative Action, Small Business Contractors And Occupational Health And Safety (Section 8 of this RFB));

- (b) The bidder's success in developing an apprenticeship program complying with Sections 46a-68-1 to 46a-68-17 of the *Regulations of Connecticut State Agencies*, inclusive (See Question 5 of the Questionnaire Concerning Affirmative Action, Small Business Contractors And Occupational Health And Safety (Section 8 of this RFB));
- (c) The bidder's promise to develop and implement a successful affirmative action plan (See Question 4B of the Questionnaire Concerning Affirmative Action, Small Business Contractors And Occupational Health And Safety (Section 8 of this RFB));
- (d) The bidder's submission of EEO-1 data indicating that the composition of its work force is at or near parity when compared to the racial and sexual composition of the work force in the relevant labor market area (See Section 11(i) of this Instructions To Bidders); and
- (e) The bidder's promise to set aside a portion of the contract for legitimate minority business enterprises (See Section 11(b) of this Instructions To Bidders).

14. Contract Award

If the contract is to be awarded, CRRA will issue to the successful bidder(s) a Notice Of Award within ninety (90) days after the bid due date.

CRRA reserves the right to correct inaccurate awards resulting from CRRA's clerical errors. This may include, in extreme circumstances, revoking a Notice Of Award already made to a bidder and subsequently awarding the Notice of Award to another bidder. Such action by CRRA shall not constitute a breach of this RFB by CRRA since the Notice Of Award to the initial bidder is deemed to be void ab initio and of no effect as if no Agreement ever existed between CRRA and the initial bidder.

15. Contractor's Certification Concerning Gifts

Pursuant to *Connecticut General Statutes* Section 4-252, the apparently successful bidder(s) must submit a document certifying that it has not given any gifts to certain individuals between the date CRRA started planning the RFB and the date the Agreement is executed. If the apparently successful Bidder does not execute the Certification, it will be disqualified for the Agreement. The dates between which the bidder may not give gifts and the identities of those to whom it may not give gifts are specified in the attachment to the Notice Of Award included in this RFB (see Attachment A to Section 12 of the RFB).

16. Bidder's Qualifications

CRRA may make any investigation deemed necessary to determine the ability of any bidder to perform the Work required. Each bidder shall furnish CRRA with all such information as may be required for this purpose.

17. Bid Preparation And Other Costs

Each bidder shall be solely responsible for all costs and expenses associated with the preparation and/or submission of its bid, or incurred in connection with any interviews and negotiations with CRRA, and CRRA shall have no responsibility or liability whatsoever for any such costs and expenses.

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined on the following page):

Campaign Contribution and Solicitation Ban

No *state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor*, with regard to a *state contract* or *state contract solicitation* with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or *solicit* contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee;

Duty to Inform

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

Civil penalties--\$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of \$2000 or twice the amount of the prohibited contributions made by their principals.

2.5 CRRA's Inspection Rights

Contractor's performance of the Services hereunder, as well as Contractor's work products resulting from such performance, are subject to inspection by CRRA. Inspections may be conducted at any time by CRRA, with or without notice to Contractor. In the event of an inspection, Contractor shall provide to CRRA any documents or other materials that may be necessary in order for CRRA to conduct the inspection. If, after any such inspection, CRRA is unsatisfied with Contractor's performance of the Services hereunder or any of the work products resulting therefrom, Contractor shall, at the direction of CRRA, promptly render such performance or work products satisfactory to CRRA at no additional cost or expense to CRRA and without any extension of or addition to any time schedules for the remaining Services.

2.6 Access

In such event, and pursuant to CRRA's request, Contractor shall promptly commence and perform the work required to accommodate such revisions, modifications or changes, which work shall be performed by Contractor in accordance with the Standards unless otherwise agreed to in writing by CRRA and Contractor. If any adjustment(s) to the O&M Contract Price (as hereinafter defined in Section 3.1(a)) or the schedule of fees set forth in **Exhibit B** is required, or if increased or decreased compensation to the Contractor is warranted as a result of such revisions, modifications or changes, CRRA and Contractor shall mutually agree in writing on the amount of such adjustment(s) or increased or decreased compensation provided that the values for the existing Services, to the extent applicable, shall be used to determine the appropriate increase or decrease for such adjustments or the amount of such modified compensation. Contractor has carefully studied all such information and data and Contractor has obtained and carefully studied (or assumes responsibility for having done so) all such additional or supplementary examinations, investigations, explorations, tests, studies and data concerning conditions (including but not limited to surface conditions, subsurface conditions and underground facilities) at or contiguous to the Landfill and all other conditions or factors which may affect cost, progress, performance, furnishing or completion of the Services or which relate to any aspect of the means, methods, techniques, sequences, and procedures of construction or performance of the Services to be

employed by Contractor and safety precautions and programs incident thereto. Contractor does not consider that any additional examinations, investigations, explorations, tests, studies or data are necessary for Contractor to conclusively determine, and Contractor has so determined, that the Services can be performed, furnished and completed in accordance with the Scope Of Services, the O&M Contract Price and the other terms and conditions of the Contract Documents. In the event that the information or data shown or indicated in the Contract Documents with respect to underground facilities or surface, subsurface or other conditions at or contiguous to the Landfill differs from conditions encountered by Contractor during performance of the Services, there shall be no increase in the O&M Contract Price as a result of such differing conditions, unless CRRA, in its sole and absolute discretion, agrees in writing to such increase and/or extension.

2.11 Methane Gases

Contractor covenants and agrees that it and its employees, agents, sub-Contractors and materialmen shall take all necessary precautions with respect to the presence of methane gases at all times at the Property, including, but not limited to, prohibiting the presence of any open flames, sparks, smoking or any other activity which might ignite any of the methane gases present at the Property.

CRRA has the right to inspect and review all such books and records during Contractor's business hours.

2.14 Status of Contractor

CRRA and Contractor acknowledge and agree that Contractor is acting as an independent contractor in performing any Services for CRRA hereunder and that Contractor shall perform such Services in its own manner and method subject to the terms of this Agreement. Nothing in this Agreement shall be construed or interpreted as creating a partnership, a joint venture, an agency, a master-servant relationship, an employer-employee relationship or any other relationship between CRRA and Contractor other than that of an owner and an independent

contractor. Contractor is expressly forbidden from transacting any business in the name of or on account of CRRA, and Contractor has no power or authority to assume or create any obligation or responsibility for or on behalf of CRRA in any manner whatsoever.

2.15 Subcontractors

Contractor shall consult with CRRA before hiring any subcontractors to perform any Services hereunder. Contractor shall require all of its subcontractors to abide by the terms and conditions of this Agreement. Moreover, Contractor's subcontracts with such subcontractors shall specifically provide that, in the event of a default by Contractor thereunder or under this Agreement, CRRA may directly enforce such subcontracts and make payments thereunder. Also Contractor's subcontracts with its subcontractors shall specifically include CRRA as a third party beneficiary and shall provide that such subcontractors shall not be excused from any of their obligations under such subcontracts by reason of any claims, setoffs, or other rights whatsoever that they may have with or against Contractor other than through such subcontracts.

2.16 Contractor's Employees

All persons employed by Contractor shall be subject and responsible solely to the direction of Contractor and shall not be deemed to be employees of CRRA.

Contractor shall claim no interest in the Property or any equipment, fixtures or improvements located or to be located thereon, including but not limited to the Site or any part thereof. Contractor shall not file any mechanic's liens or other liens or security interests against CRRA or any of its properties, including but not limited to the Property. Contractor shall defend, indemnify and hold harmless CRRA against all costs associated with the filing of such liens or interests by Contractor or any of its subcontractors or materialmen. Before any subcontractor or materialman of Contractor commences any Services hereunder, Contractor shall deliver to CRRA an original waiver of mechanic's liens properly executed by such subcontractor or materialman. If any mechanic's lien is filed against CRRA or any of its properties in connection with the Services hereunder, Contractor shall cause the same to be canceled and discharged of record within fifteen (15) days after the filing of such lien and, if Contractor fails to do so, CRRA may, at its option but without any obligation to do so, make any payment necessary to obtain such cancellation or discharge and the cost thereof, at CRRA's election, shall be either deducted from any payment due to Contractor hereunder or reimbursed to CRRA promptly upon demand by CRRA to Contractor.

Such overtime will be reimbursed as provided in Exhibit B.

Out-of-pocket expenses shall be reimbursed at cost provided they are consistent with CRRA's Travel and Expense Policy attached hereto and made a part hereof as Exhibit C, except that Contractor will be deemed to have met CRRA's "Receipt" requirements of such document if Contractor provides to CRRA with each billing the following:

- (b) Contractor is not in default hereunder,
- (c) CRRA does not dispute the amount of the payment requested, and
- (d) The bill contains all of the information required hereunder,

then CRRA shall pay the amount requested within thirty (30) calendar days after its receipt of such bill.

If, however, CRRA determines that

- (a) Any of the Services for which Contractor has requested payment is not in conformance with the Standards,
- (b) Such bill does not contain all the requisite information, or
- (c) Contractor is in default hereunder,

then CRRA may, in its sole and absolute discretion, withhold all or a portion of the payment requested by Contractor and Contractor shall, if requested by CRRA, immediately take, at Contractor's sole cost and expense, all action necessary to render such Services and/or bill in conformance with the Standards, or to cure such default.

CRRA shall have no obligation under this Agreement to pay for any Services that CRRA determines have not been performed and/or completed in conformance with the Standards, and CRRA shall have no obligation to pay Contractor any amount due Contractor under this Agreement if Contractor is in default hereunder. If CRRA disputes the amount in any written request for payment submitted by Contractor, CRRA shall have the right to withhold the disputed amount until the dispute is settled. CRRA shall notify Contractor of any disputed amount and the reason(s) for disputing such amount.

3.3 Accounting Obligations

Contractor shall maintain books and accounts of the costs incurred by Contractor in performing the Services pursuant to this Agreement by contract number and in accordance with generally accepted accounting principles and practices. Contractor shall be responsible for paying or providing for all of the taxes, insurance and other payments described or similar to those described in this Section 3.4 and Contractor hereby agrees to indemnify CRRA and hold CRRA harmless against any and all such taxes, insurance or payments, or similar costs which CRRA may be required to pay in the event that Contractor's status hereunder is determined to be other than that of an independent contractor.

3.5 State of Connecticut Taxes

Contractor agrees that, pursuant to *Connecticut General Statutes* § 22a-270 (as the same may be amended or superceded from time to time) CRRA is exempt from all State of Connecticut taxes and assessments. Without limiting the generality of the preceding sentence, Contractor also agrees that, pursuant to *Connecticut General Statutes* § 12-412(92) (as the same may be amended or superceded from time to time), "[t]he sales and use of any services or tangible personal property to be incorporated into or used or otherwise consumed in the operation of any project of [CRRA] . . . whether such purchases are made directly by [CRRA] or are reimbursed by [CRRA] to the lessee or operator of such project" is not subject to Connecticut Sales and Use Taxes. Accordingly, Contractor shall not charge CRRA any State of Connecticut taxes or assessments at any time in connection with Contractor's performance of this Agreement, nor shall Contractor include any State of Connecticut taxes or assessments in any rates, costs, prices or other charges to CRRA hereunder. The obligations of Contractor contained in the preceding sentence are absolute and shall apply notwithstanding any payment by Contractor of any State of Connecticut taxes or assessments in connection with its performance of this Agreement. Contractor represents and warrants that no State of Connecticut taxes or assessments were included in any rates, costs, prices or other charges presented to CRRA in any RFB or other submittal or proposal to CRRA in connection with this Agreement.

CRRA reserves the right to review the reasonableness of all bills and expenses as they are billed to CRRA by Contractor. Upon reasonable notice from CRRA, Contractor agrees to allow CRRA to audit Contractor's files pertaining to CRRA's cases assigned to Contractor. Any such audit will be conducted on Contractor's premises and Contractor will be expected to produce any pertinent file information requested including Contractor's time and expense records.

Contractor's obligations under this paragraph shall survive the termination or expiration of this Agreement.

4.2 Time is of the Essence

CRRA and Contractor hereby acknowledge and agree that time is of the essence with respect to Contractor's performance of the Services hereunder. Accordingly, Contractor shall perform and complete any Services hereunder during the term of this Agreement in accordance with any time schedule set forth in this Agreement or mutually agreed upon by CRRA and Contractor for such Services.

4.3 Termination

CRRA may terminate this Agreement at any time by providing Contractor with ten (10) days' prior written notice of such termination. Upon receipt of such written notice from CRRA, Contractor shall immediately cease performance of all Services, unless otherwise directed in writing by CRRA. Prior to any termination of this Agreement, Contractor shall remove all of its personnel and equipment from the Property, restore any part of the Property, any of the improvements located or to be located thereon, including but not limited to any access roads, or any of the Services that requires restoration pursuant to the terms and conditions of Section 4.4 hereof. (b) CRRA shall have no further liability hereunder.

Except for the payment that may be required pursuant to the preceding sentence, CRRA shall not be liable to Contractor in any other manner whatsoever in the event CRRA exercises its right to terminate this Agreement.

5. INDEMNIFICATION

5.1 Contractor's Indemnity

Contractor shall at all times defend, indemnify and hold harmless CRRA and its board of directors, officers, agents and employees from and against any and all claims, damages, losses, judgments, liability, workers' compensation payments and expenses (including but not limited to attorneys' fees) arising out of injuries to the person (including death), damage to property or any other damages alleged to have been sustained by: (a) CRRA or any of its directors, officers, agents, employees or other contractors, or (b) Contractor or any of its directors, officers, agents, employees, subcontractors or materialmen, or (c) any other person, to the extent any such injuries, damage or damages are caused or alleged to have been caused in whole or in part by the acts, omissions or negligence of Contractor or any of its directors, officers, agents, employees, subcontractors or materialmen. Contractor further undertakes to reimburse CRRA for damage to property of CRRA caused by Contractor or any of its directors, officers, agents, employees, subcontractors or materialmen, or by faulty, defective or unsuitable material or equipment used by it or any of them. The existence of insurance shall in no way limit the scope of this indemnification. Contractor's obligations under this Section 5.1 shall survive the termination or expiration of this Agreement.

5.2 Material Warranty

Contractor warrants that any equipment and materials provided for the operation and maintenance of, and any improvements made to, the System will be free from defect, and the work performed by the Contractor shall be done in a workmanlike manner consistent and in accordance with the Standards.

Contractor shall obtain any guarantees or warranties for equipment or materials provided pursuant to this Section 5.2, and have the same assigned to CRRA, if assignable. Rendering the equipment, material or any work performed compliant with the warranties herein provided is not CRRA's exclusive remedy for the breach of the warranties by Contractor, and does not limit CRRA's rights to seek other legal or equitable remedies including but not limited to direct and consequential damages to the CRRA resulting from the provision of defective equipment, material or work.

SCOPE OF SERVICES

OPERATION AND MAINTENANCE OF A LANDFILL GAS COLLECTION SYSTEM AND ENCLOSED FLARE STATION - SHELTON LANDFILL

INTRODUCTION

The CRRA Shelton Landfill is located on 866 River Road in Shelton, CT. The landfill no longer accepts refuse or other wastes for disposal and is now closed. The CRRA operates a landfill gas collection system and enclosed flare station at the landfill to withdraw gas from the landfill in order to control odor emissions and to prevent gas migration from the landfill to adjacent properties.

The landfill gas collection system currently consists of a perimeter gas collection system and a central gas collection system, connected via a common header system to an enclosed gas flare station located at the southern portion of the landfill property. The location of the various system components is depicted in **Attachment 1**.

The perimeter system consists of a series of 47 gas extraction wells, all wells are spaced at approximately 50-foot intervals, outside the defined landfill footprint, on the west and north sides of the landfill, plus four wellheads associated with two horizontal collectors. These wells are connected, via a series of header systems, to the enclosed gas flare. The perimeter system is designed to create a continuous vacuum barrier against gas migration beyond the limits of the perimeter well system and beyond the limits of the landfill property. CRRA does not make any expressed or implied guarantees or warranties as to the rates of gas extraction from the perimeter gas collection system required to achieve effective control of gas migration. Operation of the perimeter system at varying rates of flow or vacuum may be required at times to insure that gas does not migrate beyond the property boundary and to optimize operation of the system. Contractor shall, at all times, maintain levels of methane present in the soil beyond the property line, or in any on-site or off-site structures below all applicable limits.

The central system currently includes 68 extraction wells installed within the waste mass and connected by a series of headers to the enclosed flare.

The perimeter and central gas collection systems are connected, via a common header to an enclosed central flare station. The central flare station consists of a John Zink 18.6 Mmbtu ZTOF Flare. Detailed specifications and the operations and maintenance plan for the flare station are available for review at CRRA's offices on request. Contractor shall, at all times, operate the landfill gas flare in accordance with all manufacturer's operational and maintenance recommendations and in accordance with all applicable permits, regulations and requirements as

may pertain to the operation of the flare. Contractor shall perform the operation and maintenance services for the landfill gas collection system(s) and enclosed landfill gas flare at the Shelton Landfill as detailed below.

In August of 1999 there was an off-site gas migration incident at this landfill. A number of businesses and residents of the Town of Shelton, located near the landfill, had to be evacuated. The CT CEP issued a Consent Order and assessed fines against CRRA as a result of this incident. It is CRRA's intention that such an incident never happens again. The Shelton Landfill site receives heightened scrutiny by the community and the media. CRRA exercises the greatest caution with regard to the operation of this facility. The Contractor must be mindful of this history and is expected to perform to a very high standard of professional conduct. This includes being extremely conscientious of all environmental and compliance obligations and the performance of all required duties at this facility.

CONTRACTOR'S GENERAL RESPONSIBILITIES

1. Contractor shall be familiar with all applicable regulations, statutes, orders, permits and any other requirements to which the facility is subject and shall have responsibility for maintaining continuous compliance with all applicable environmental and operational requirements. This includes preparation and submission, as directed by CRRA, of all communication with regulatory agencies and all other activities required to maintain compliance. Contractor shall be familiar with all pertinent documents including, but not limited to the **Operation and Maintenance Manual, for a 5' OD x 40' OAH Enclosed ZTOF Biogas Flare System** by John Zink (the O & M Manual), **Permit No. 0091 to Construct and Operate issued 4-26-02** by the CTDEP Bureau of Air Management, the **Landfill Gas Systems Operations and Gas Migration Monitoring Plan** by SCS Engineers PC, dated February 27, 2002 and the **Baldor Generator Operation and Maintenance Manual**.
2. Contractor shall assign and keep for the System at all times during the term of this Agreement a competent on-call Project Manager, who shall not be replaced without prior written notice to CRRA. The Project Manager shall be Contractor's representative at the Landfill and shall have authority to act on behalf of Contractor. All communications given to the Project Manager by CRRA or its agents shall be as binding as if given to Contractor.
3. Contractor shall provide, suitably qualified personnel to perform the Services as required by this Agreement. Contractor shall at all times maintain good discipline and order at the site.
4. Except in connection with the safety or protection of persons, the System or property at the site or adjacent thereto, all Services performed at the site shall be performed during the Landfill's regular business hours, and Contractor shall not permit overtime work or the performance of Services on Saturday, Sunday or any legal holiday without CRRA's prior written consent.

5. During the term of this Agreement, Contractor shall keep the Property free from accumulations of waste materials, rubbish and other debris resulting from Contractor's performance of the Services.
6. Contractor shall update as necessary all forms used for the collection and compilation of data.

CONTRACTOR'S SPECIFIC RESPONSIBILITIES

Tasks 1 through 7 describe the Contractor's specific responsibilities under this contract. The exclusion of any applicable environmental or operational requirements from these Tasks does not relieve the Contractor of its responsibility to comply with such requirements.

Task 1 Landfill Gas Collection System Operations and Maintenance – Routine Services

Contractor shall, not less than weekly, unless otherwise indicated, provide routine operations, monitoring, and maintenance services to the perimeter and central gas collection well fields and header systems as outlined herein and in the Landfill Gas Systems Operations and Gas Migration Monitoring Plan by SCS Engineers, PC, February 27, 2002. The routine monitoring will focus on obtaining operational data to include: landfill gas flow, temperature, static pressure, gas composition (CH₄, CO₂, O₂, and balance of gas as N₂) and wellhead gas control valve position. Contractor shall inspect the components and operation of the well fields and header systems and perform preventative maintenance tasks as needed. Contractor shall determine any needed repairs, replacements and modifications necessary to the proper operation and performance of the well field and header systems and promptly report these items, in writing, to CRRA as part of the required progress reports. CRRA will direct Contractor to perform such work at CRRA's discretion. This task includes the following activities:

Task 1.1 Routine Well Field Inspections and Adjustments

Contractor shall, not less than weekly monitor each of the operating gas extraction wells on the perimeter and central gas collection systems to determine and adjust gas extraction rates, vacuum, methane concentration and other parameters to assure optimum performance of the well fields. At each wellhead, Contractor shall record:

- Valve position adjustment, if any
- Gas quality (methane, carbon dioxide, oxygen, balance gas)
- Wellhead static pressure
- Velocity pressure and/or gas flowrate
- Gas temperature
- System pressure

The goal is to balance the rates of flow from the perimeter and central well fields to optimize gas quality to the flare and prevent off-site gas migration and to control odor emissions from the landfill, in accordance with all applicable regulatory

standards and permits. The Contractor shall be the party solely responsible for assuring that gas migration from the landfill does not extend beyond the property limits in concentrations in excess of 100% of the LEL and assuring that landfill gas does not accumulate in on-site buildings and structures at concentrations exceeding 25% LEL. Contractor shall also be responsible for assuring that gas emissions from the landfill are controlled such that landfill gas odors do not create a nuisance to adjacent property owners.

Contractor shall, not less than weekly, inspect all LFG system components of the central and perimeter well systems. Contractor shall observe the condition of all aboveground piping, including header lines, laterals, wellheads and flexible connections and perform any needed repairs. Wellhead components should be checked, including monitoring ports, valves, dust caps and thermometers. Contractor shall inspect the area surrounding all wellheads noting settlement, ponding of water, and surface conditions such as distressed vegetation.

The following tasks should be performed not less than weekly and in the order given since adjustments to the collection system may warrant adjustments of the enclosed flare. Contractor shall document all well adjustments and data collected on the forms included in **Attachments 2 and 3**.

- a. Verify that the flare is operating correctly; if not, refer to the O & M Manual.
- b. Read and record, at each **perimeter** well, vacuum, % CH₄, %O₂, % Balance Gas, and a description of the valve adjustment (it is useful to have a copy of the previous well readings with which to compare the latest readings).
- c. The target value for CH₄ in the perimeter wells is 0%. Most wells will show much greater methane content during a 'cold' start. Adjust the wells as follows to reach the desired objective.
 - If the % CH₄ at a well is greater than 10%, increase the vacuum at that well by 10%. If the previous CH₄ reading was also greater than 10%, and an adjustment was made at that time, increase the vacuum by 20%.
 - If the % CH₄ is between 2 and 10%, leave the valve setting as is.
 - If the % CH₄ is lower than 2%, decrease the vacuum at the well by 10%. If the previous CH₄ reading was also lower than 2%, and an adjustment was made at that time, decrease the vacuum by 20%.
 - Make a note of any adjustments made and the valve setting as left. Adjustments at any given well normally involve

compensating adjustments to others in order to maintain flow and keep the methane concentration at the flare within limits.

- d. Read and record, at each central well, vacuum, % CH₄, %O₂, % Balance Gas, Temperature, and an approximate measurement of the valve setting (as with the perimeter wells, it is useful to have a copy of the previous well readings with which to compare the latest readings).
- e. All central wells must be adjusted so that O₂ is maintained below 5%, Balance Gas is maintained below 20%, and Temperature is maintained below 55 Celsius (131 Fahrenheit). If any of these criteria are exceeded, Contractor shall reduce vacuum to the well. Contractor shall at all times maintain negative pressure at each central well head except as provided in 40 CFR 60.753(b). The target value for CH₄ in the central wells is 50%. If all of the above criteria are met, make adjustments to the central well valve settings according to the following criteria:
 - If the % CH₄ at a well is greater than 55%, increase the vacuum at that well by 10%. If the previous CH₄ reading was also greater than 55%, and an adjustment was made at that time, increase the vacuum by 20%.
 - If the % CH₄ is between 45 and 55%, leave the value setting as is,
 - If the % CH₄ is lower than 45%, decrease the vacuum at the well by 10%. If the previous CH₄ reading was also lower than 45%, and an adjustment was made at that time, decrease the vacuum by 20%.
 - Make a note of any adjustments made and the valve setting as left.

Task 1.2 Routine Header System Inspections and Adjustments

Contractor shall monitor, not less than weekly, the condition and performance of all header systems, operating valves, etc. and make all adjustments, together with appropriate well field adjustments, in order to optimize gas quality to the flare and prevent off-site gas migration.

Task 1.3 Routine Maintenance

Contractor shall complete any routine maintenance to the system as needed to assure optimum system performance at all times.

Task 2 Enclosed Flare Station Operations and Maintenance – Routine Services

The enclosed flare station includes the equipment needed to provide vacuum to the collection systems and convey LFG from the wellfield to the flare for destruction. This equipment must be monitored and maintained in proper operating condition.

Contractor shall operate and maintain the enclosed flare station to assure complete combustion of all landfill gas per all applicable operating and environmental requirements, including, but not limited to regulations, permits, orders, statutes, etc. as well as per accepted best combustion practices and as described in the O & M Manual. The O & M Manual for the enclosed flare station and all related components (including, enclosed flare, blowers, valves and actuators, electrical components and controls, filter systems, autodialer, etc.) shall be provided to Contractor. At no time during the operation of the enclosed flare station shall Contractor allow the flare to be non-operational for a period of more than 4 hours without notification of CRRA.

The control system for the flare requires careful attention in order for the system to operate as intended. The flare can operate with a broad range of central and perimeter gas flows, but may require adjustments as those flows vary over time. It is therefore vitally important that a routine is followed whereby the collection system and flare station are monitored and adjusted to compensate for variations in conditions in order to meet the all of the operational requirements.

Contractor shall monitor the enclosed flare station weekly. Contractor shall inspect all piping and station components, perform any required repairs or maintenance, and record the time, length and reason for any system downtime. Contractor shall perform and document all maintenance activities on the flare station at the frequency set forth in **Attachment 4**. These routine operational and maintenance activities shall include the following:

- a. Check pens and paper supply in chart recorders; replace as necessary.
- b. Clean system components as needed.
- c. Lubricate system components as needed.
- d. Inspect, tighten, repair or replace fittings, gauges, pipe connectors and tubing connectors as needed.
- e. Record the level of condensate in the tanks (record on **Attachment 5**). Remove condensate as needed.
- f. Examine all piping, tubing, flexible well connector tubing and ductwork for signs of leaks, warping or heat damage. Repair or replace as needed.
- g. Examine blowers for leakage, excessive vibration, bearing noise, etc. Repair as needed.

- h. Check operation of heat tracing monthly from October to March. Repair as needed. Report on status of heat trace in monthly reports.
- i. Check knockout filter. If filter DP exceeds 5.0 inches W.C., replace.
- j. Check supply of propane, order as needed and record.
- k. Remove and clean or replace flame arrestors when differential pressure exceeds 2" W.C.
- l. Lubricate blower bearings.
- m. Clean flame scanner and sight ports every month.
- n. Verify operation of autodialer system every six months and update system as necessary. Update contact list as soon as any contact information changes.
- o. Please note methane analyzer is currently off-line. Contractor is not expected to maintain or operate this unit and therefore should not include the cost for this in its bid.

Contractor shall perform routine on-site landfill gas migration monitoring at 19 locations. 12 of these locations consist of a series of permanently installed, continuous gas monitoring probes located along the west and north perimeter of the landfill. 7 of these locations consist of a series of permanently installed non-continuous gas monitoring probes located along the west and north perimeter of the landfill.

Contractor will monitor and inspect the perimeter gas monitoring probes weekly and visually inspect each gas probe and note any damage. Damage must be reported to CRRA and repaired as soon as possible. Contractor will test each monitoring probe for methane (%LEL) using a suitable, properly calibrated instrument. Results of weekly inspections and testing will be recorded on the form included in **Attachment 7**. In the event that landfill gas is detected in any of these gas probes above 100%LEL, Contractor shall immediately notify CRRA and perform off-site monitoring as outlined below.

Task 3.2 On-Site Structure Monitoring

Contractor shall perform routine on site structure monitoring at all on-site structures monthly. Contractor shall inspect to ensure proper operation of all continuous structure monitors (currently in scale house and office) during each monitoring event. Contractor shall test each structure for methane (%LEL) using a suitable, properly calibrated instrument. Results of weekly inspections and testing will be recorded on the form included in **Attachment 8**. In the event that landfill gas is detected in any structure above 25%LEL, **Contractor shall immediately notify CRRA and implement the Contingency Plan detailed in Section 7 of the Landfill Gas Systems Operations and Gas Migration Monitoring Plan by SCS Engineers, PC, February 27, 2002**, and perform off-site monitoring as outlined below.

Contractor shall be responsible for all costs associated with the proper maintenance and calibration of all on-site continuous methane monitors according to the manufacturer's specifications.

Task 3.3 Off-Site Monitoring Probes

Contractor shall perform routine off-site landfill gas migration monitoring at 16 locations. These locations consist of a series of bar punch probes installed to a depth of approximately 36".

Contractor will monitor and inspect the off-site gas monitoring probes weekly and visually inspect each gas probe and note any damage. Damage must be reported to CRRA and repaired as soon as possible. Contractor will test each monitoring probe for methane (%LEL) and CO₂ using a suitable, properly calibrated instrument. Results of weekly inspections and testing will be recorded on the form included in **Attachment 9**. In the event that landfill gas is detected in any of these gas probes above 100%LEL, **Contractor shall immediately notify CRRA and implement the Contingency Plan detailed in Section 7 of the Landfill Gas Systems Operations and Gas Migration Monitoring Plan by SCS Engineers, PC, February 27, 2002**, and perform off-site monitoring as outlined below in "Contingency Off-Site Gas Monitoring".

Task 3.4 Off-Site Structures

Contractor shall perform routine off-site structure monitoring on a monthly basis at 9 separate business locations on the west side of Route 110 equipped with continuous methane monitoring devices (one business is equipped with 2 devices, for a total of 10 continuous monitors in all). Contractor shall inspect to ensure proper operation of all continuous structure monitors during each monitoring event. Contractor shall test each structure for methane (%LEL) using a suitable, properly calibrated instrument. Results of monthly inspections and testing will be recorded on the form included in **Attachment 10**. In the event that landfill gas is detected in any structure above 25%LEL, **Contractor shall immediately notify CRRA and implement the Contingency Plan detailed in Section 7 of the Landfill Gas Systems Operations and Gas Migration Monitoring Plan by SCS Engineers, PC, February 27, 2002** and perform off-site monitoring as outlined below.

Contractor shall inspect on a quarterly basis continuous methane monitoring devices located at two private residences located west of the landfill. CRRA will provide the successful bidder with the location and contact information of each residential monitor.

Contractor shall calibrate all business and residential continuous methane monitors on a quarterly basis in accordance with the manufacturer's recommendations.

Task 3.5 Contingency Off-Site Gas Monitoring (if required)

In the event that landfill gas is detected in any of these gas probes above 100%LEL, or in any on-site or off-site structure above 25%LEL, Contractor shall immediately notify CRRA and implement the Contingency Plan detailed in Section 7 of the Landfill Gas Systems Operations and Gas Migration Monitoring Plan by SCS Engineers, PC, February 27, 2002. Contractor shall perform off-site monitoring as detailed below and document the monitoring on the form included in Attachment 11.

Using a bar punch or similar tool, the technician will install temporary probes a minimum of every 100 feet or as needed to identify the area affected by the migrating landfill gas. The bar punch will be driven to a depth of at least 36 inches. Soil gas will be tested in each probe using a suitable, properly calibrated and maintained instrument. In addition to soil gas probes, Contractor shall test all potential receiving structures in the vicinity of the migration incident including but not limited to, houses, drainage pipes and catch basins, utility conduits, underground structures, etc. Each soil gas probe and structure will be tested for a minimum of two minutes, or until the gas reading stabilizes.

Contractor shall notify CRRA immediately if any methane is detected in any bar punch probe or structure. Additional bar punch probes will be installed and tested as needed to determine the extent of the LFG migration. The four perimeter collection wells nearest the indicating bar punch probe(s) or structure(s) will be adjusted to increase the vacuum and rate of gas extraction at each well to intercept the migrating gas, and the Contractor will notify CRRA immediately. The indicating bar punch probes and structures, and perimeter collection wells will be monitored daily until the LFG migration is controlled.

Task 4 Non-Routine and Emergency Operation and Maintenance Services

From time to time, Contractor may be required to perform non-routine operation and maintenance services or respond to emergency call-out by the system autodialer(s) or CRRA. All non-routine services (those services that are in addition to those outlined in the Scope of Work and Operations Plan) shall be performed when directed to do so by CRRA. Contractor shall not perform any non-routine operation or maintenance services (except emergency services) without prior written approval from CRRA. Contractor shall immediately respond to any call out for emergency services when required to do so in response to a call out by the autodialer(s) or as directed by CRRA. Invoicing for non-routine and emergency services shall be per the unit rates and fees as outlined in the Contract Documents.

Task 4.1 Scheduled Maintenance

Non-routine activities include unique work tasks that are aimed at improving the System's performance and increasing the quantity and quality of the landfill gas delivered to the flare. These work tasks will be developed from the recommendations

of the monthly status reports as required above and discussions between CRRA and the Contractor's Project Manager. This work will be reviewed and prioritized jointly by both parties. Contractor will undertake the work efforts as required, but only after receiving written authorization from CRRA to proceed.

The Non-routine work will include, but is not limited to; removal, shipping, and reinstallation of system components that require off-site servicing; and repair and/or replacement of any damaged components of the System that Contractor is not otherwise obligated to repair and replace pursuant to the Routine Services.

These services are essential for proper System operation; however, such services can be scheduled to allow for procurement of materials, equipment, scheduling of personnel, etc.

Task 4.2 Unscheduled Emergency Services

Contractor will respond to emergency situations, as determined by on-site personnel, seven (7) days a week within two (2) hours from the time of notification of the situation by on-site personnel or call-out device. Contractor will work with CRRA to develop site-specific call out and personnel contact procedures required to implement these emergency services.

Emergency services include events that require immediate response, including, but not limited to the following:

- power outage
- emergency call-out by CRRA;
- repair of main header line break. (resulting in disrupted gas flow to the Blower Station)
- significantly reduced flow rate, and
- surging vacuum
- flameouts
- blower failure

Task 4.3 Emergency Generator Operation and Maintenance

Contractor shall operate and maintain the emergency generator on site as follows:

1. Upon award of the contract, prior to the beginning of the term of the contract, the Contractor shall arrange, with the CRRA Field Services Coordinator, to be trained in the operation and maintenance of the emergency generator.
2. On a quarterly basis, the Contractor shall document operation of the generator for one hour in order to assure its proper operation. This quarterly operation is not required if the generator has been operated to provide power to the facility in the event of an electrical interruption for more than one hour in the previous two months.

3. The Contractor shall document checking the generator's fuel level monthly in the O&M report. If the fuel level is below 50%, the Contractor will refuel the generator. Note that this generator uses only "ultra low sulfur diesel fuel" containing not more than 15 parts per million of sulfur.
4. The Contractor shall operate the generator in the event of an electrical interruption. The Contractor shall report such operation to the CRRA Field Services Coordinator as soon as possible.
5. The Contractor shall have all training, licenses, insurance to safely transport the generator to any CRRA facility location upon request by CRRA.

Task 5 Materials and Spare Parts Inventory

1. Contractor shall be responsible for procuring all materials and equipment necessary for the execution, performance and completion of the Services hereunder.

All spare parts purchased by Contractor shall be invoiced to CRRA in accordance with the Contract Documents. In addition to an on-site spare parts inventory, Contractor shall also establish a plan, per the requirements as outlined in the Operations Plan, whereby Contractor shall establish, and identify in his bid, a ready source of standby equipment, to assure operation of the system(s) in the event of unforeseen system outages. **This plan will be prepared for CRRA review and approval and shall be part of the Contractor's bid submittal.**

Task 6 Reporting Requirements

Contractor will provide any and all operating and monitoring data to CRRA upon request. The Contractor will notify CRRA if any monitoring results exceed any applicable limit, or as otherwise required herein, or if there are any control system upsets or downtime, within one hour of Contractor's detection of a reportable event.

The Contractor will also maintain a computerized database of all monitoring and maintenance records. The database will facilitate recordkeeping, documentation of maintenance and tracking of long-term trends in performance. Copies of the database in an electronic format will be provided to CRRA upon request.

A Monthly status report will be prepared and sent to CRRA that recaps the data collected, action taken and/or repairs made. The monthly report shall contain all information required by permit, order, statute, regulation, and as described herein. Upon notification of an alarm condition at the enclosed flare station, the Contractor will respond by dispatching qualified operating personnel to the landfill within **two hours**. Contractor shall notify CRRA immediately when an outage occurs and in the event that Contractor personnel cannot be immediately dispatched to the site for any reason whatsoever. The Contractor will immediately make repairs to the enclosed flare station and/or gas collection system. If the needed repairs necessitate the enclosed flare station to be non-operational for an extended period of time (more than eight hours), the Contractor will immediately notify CRRA.

CONNECTICUT RESOURCES RECOVERY AUTHORITY

TRAVEL POLICY AND EXPENSE REPORTING

1. GENERAL STATEMENT

This Travel Policy and Expense Reporting guide presents the policies that all CRRA employees (hereafter “employee(s)”) must adhere to in the planning and conducting of their business travel and their reimbursement requests. CRRA requires that all travel expenditures and their accountings meet the Internal Revenue Service requirements of “ordinary, necessary and reasonable” and should be conservative and consistent with the nature of the business assignment. These policies safeguard CRRA and protect the employee from being assessed additional taxable income. All employees are expected to fully comply with the policies and instructions in this guide. Reimbursements for actual and necessary expenses made to Directors of CRRA shall be made consistent with the provisions of this Travel Policy And Expense Reporting guide; however, as stated in the Connecticut General Statutes, Directors shall not be required to obtain pre-approval from the President for any expenses.

2. APPROVALS

Prior written approval by the President or the employee’s Division Head at least one (1) week in advance is required for all overnight trips out of state, except in an emergency. It is the obligation of the employee to obtain this prior approval and no reimbursement will be made without this approval.

Prior written approval by the President or the employee’s Division Head at least one (1) week in advance is required for all employee trips that are for educational seminars, professional conferences, vendor-initiated field trips, and industry organization events.

To obtain written approval, the employee must complete the overnight travel form, and, if a cash advance is requested, complete a cash advance form that estimates the out-of-pocket expenses, and submit the completed form(s) to the appropriate Division Head or President in as far in advance as possible of departure date.

3. TRANSPORTATION

Transportation expenses should be kept to a minimum. The most direct and practical route should be selected.

3.1 Rental Automobile

Rental car expenses will be paid by CRRA and whenever possible should be billed directly to CRRA to take advantage of CRRA's tax-exempt status and any other discounts available to CRRA.

3.1.1 Insurance

3.1.1.1 Business Use Of A Rental Automobile

Employees on business do not need to purchase additional insurance coverage (collision damage waiver or excess liability) from the rental company. The Corporate Insurance Program covers these risks. Please note that all vehicles must be rented in CRRA's name to have CRRA's policy cover the employee.

3.1.1.2 Personal Use Of A Rental Automobile

Employees are prohibited from using a CRRA rental automobile for personal use. Personal use that is incidental to CRRA business use will be covered by the CRRA insurance policy as long as the vehicle was rented in CRRA's name. Incidental usage is defined as usage of the vehicle that is directly related to business usage (e.g. mileage to get meals on a business trip).

3.2 Business Use Of Employee's Car

3.2.1 Reimbursement Rate

The reimbursement rate for an employee's use of their personal automobile for CRRA business is the IRS approved rate, as adjusted from time to time by the IRS, for employee use of their personal car on business. The above mileage reimbursement allowance for business use of an employee's vehicle is calculated in a manner that takes into account all auto-related expenses, including the cost of carrying insurance (without a deductible). Therefore, CRRA will not reimburse an employee for vehicle damage or personal liability that occurs while a personal automobile is being used on CRRA business if the employee drives their personal vehicle 2,500 miles per year or more. This includes any deductible that may apply. However, if an employee's vehicle is driven on company business 2,500 miles or less annually, and is involved in a motor vehicle accident, CRRA will reimburse the employee through the normal expense reimbursement process for their physical damage deductible up to a maximum of \$500.00 per accident. Evidence of the payment of the deductible by the employee must be provided to CRRA in order to receive reimbursement. (Traveling on business does not include any travel involved in commuting to or from work, lunch time errands or anything other than authorized business use). Before an employee seeks the foregoing reimbursement for the use of his personal automobile, the

employee shall provide CRRA with written evidence of his personal automobile insurance with limits as required by the Connecticut General Statutes. The foregoing written proof shall be kept on file in the CRRA Finance Division.

3.2.2 Mileage Calculation

In all travel away from the CRRA office, the employee will be reimbursed using the shortest distance between points. For travel from Hartford to a CRRA facility, the President shall cause the shortest distance to be determined and the President shall cause such determination to be made available to employees. Unless approved by an employee's Division Head, employees shall use the distances determined by the President in all requests for reimbursement for travel from Hartford to a CRRA facility. An employee may request and the employee's Division Head may approve distances other than those determined by the President in extraordinary circumstances when, for reasons beyond the control of the employee, the route of the shortest distance was not reasonably available for use.

In calculating mileage, the normal commute mileage to and from the employee's home to the employee's assigned place of work must be deducted from the total trip mileage. For example, if the total trip mileage equals 100 miles, and normal commute mileage equals 20 miles, CRRA will reimburse the employee for 80 miles. This is in accordance with Internal Revenue Service and State of Connecticut policy.

3.2.3 Tolls/Parking

No receipts are necessary for tolls or parking unless they exceed five (\$5.00) dollars.

3.3 Air Travel

All air travel requires prior approval from the CRRA President. For approved travel, CRRA will reimburse employees only for coach accommodations. Employees are encouraged to inquire about discount packages and to take advantage of the least costly route whenever possible. When an employee plans a trip, the reservations should be made as far in advance as practical to obtain the lowest rate. All approved air travel for the previous month shall be reported to the CRRA Board of Directors at its next Board Meeting.

3.4 Taxis

Taxi service may be used when no other form of public transportation is available or when the cost of a taxi is close to the cost of public transportation. Employees are encouraged to use courtesy cars, airport limousines, or buses whenever possible. Since some taxi services do not provide receipts, you should have the back of your business card signed, dated, and the amount of the fare indicated by the driver.

3.5 CRRA Owned Automobiles

Please refer to the CRRA Vehicle Usage Policy adopted by the CRRA Board of Directors at its November 21, 2003, Board of Directors Meeting.

4. MEALS

Permissible expenditures for meals and tips depend on location and circumstances. Only reasonable and customary charges will be allowed and reimbursed by CRRA. An exception may be granted by the President in unusual circumstances. In-state breakfast, lunch, and dinner will not be reimbursed unless they involve a business meeting.

5. LODGING

Lodging accommodations in reasonable and economically priced single occupancy rooms, including customary tips, are reimbursable if the employee has to stay away from home overnight because of unfinished business or an early morning business meeting.

Employees should request government rates at the time of making reservations.

6. INCIDENTALS

The incidentals allowance encompasses such things as gratuities and one telephone call a day of reasonable duration to the employee's home. It is anticipated that the cost of such calls generally will appear on the employee's hotel bill.

7. PERSONAL EXPENSES

Some travel expenses are considered personal and CRRA will not reimburse them. The following, while not all inclusive, lists examples of such personal expenses that are not reimbursable expenses: amusements, athletic events, barbers, books for personal reading, athletic court or gym costs, damage to luggage, fines, hair stylists, magazines, newspapers, movies, and saunas.

8. OTHER BUSINESS EXPENSES

With prior approval of the President, CRRA will reimburse an employee for the incidental costs necessary to further an important CRRA business purpose. Any foregoing expense must be reported to the Board at the Board's next Board of Directors meeting. Any such expense must be documented by showing the following:

- The name(s) of the person or persons and the location and nature of the expense.
- The business relationship with CRRA.
- The specific business reason for the expense.
- The actual business conducted.

CRRA will not reimburse the cost of home entertaining.

9. EXPENSE REPORTING

All expense reporting must be submitted to CRRA using the CRRA expense reimbursement form(s) within twenty working days after the day the employee returns from his/her trip.

10. RECEIPTS

Employees shall obtain receipts for all travel expenses, exclusive of mileage reimbursement. This includes receipts for all meals, airfare, bus fare, taxi, toll or parking charges in excess of \$5.00 dollars, limousine, hotel, and registration fees. Travel expenses in excess of the stated guidelines herein will be reimbursed only if all receipts accompany expense vouchers. Expenses submitted without a receipt, except for gratuity and certain transfer charges, may not be reimbursed.

Original receipts are required for all entertainment.

11. EXCEPTIONS

Exceptions to these travel and expense guidelines will be authorized only upon the prior authorization of President when the circumstances warrant. Any such exception to these travel and expense guidelines should be documented and the President should notify the CRRA Board of Directors of such exception at the Board's next Board Meeting.

TERMS AND CONDITIONS TO PERFORMANCE BOND

1. The Contractor and the Surety jointly and severally bind themselves, their heirs, executors, administrators, successors and assigns to the Owner for the performance of the foregoing Agreement, the terms of which are incorporated herein by reference. Any singular reference to the Contractor, the Surety, the Owner or any other party herein shall be considered plural where applicable.
2. If the Contractor performs the Agreement, the Surety and the Contractor shall have no obligation under this Bond, except to participate in conferences as provided in Subparagraph 3.1.
3. If there is no Owner Default (as hereinafter defined), the Surety's obligation under this Bond shall arise after:
 - 3.1 The Owner has notified the Contractor and the Surety at its address described in Paragraph 10 below, that the Owner is considering declaring a Contractor Default (as hereinafter defined) and has requested and attempted to arrange a conference with the Contractor and the Surety to be held not later than fifteen (15) days after the receipt of such notice to discuss methods of performing the Agreement. If the Owner, the Contractor and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Agreement, but such an agreement shall not waive the Owner's right, if any, to subsequently declare a Contractor Default; and
 - 3.2 The Owner has declared a Contractor Default (as hereinafter defined) and formally terminated the Contractor's right to complete the Agreement. Such Contractor Default shall not be declared earlier than twenty (20) days after the Contractor and the Surety have received notice as provided in Subparagraph 3.1.
 - 3.3 The Owner has agreed to pay the Balance of the Agreement Price to the Surety in accordance with the terms of the Agreement or to a contractor selected to perform the Agreement in accordance with the terms of the agreement with the Owner.
4. When the Owner has satisfied the conditions of Paragraph 3, the Surety shall promptly and at the Surety's expense take one of the following actions:
 - 4.1 Arrange for the Contractor, with the consent of the Owner, to perform and complete the Agreement; or
 - 4.2 Undertake to perform and complete the Agreement itself, through its agents or through independent contractors; or
 - 4.3 Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Agreement, arrange for a contract to be prepared for execution by the Owner and the contractor selected with the Owner's concurrence, to be secured with a performance bond executed by a qualified surety equivalent to the bond issued on the Agreement, and pay to the Owner the amount of damages described in Paragraph 6; or
 - 4.4 Waive its right to perform and complete, arrange for completion or obtain a new contractor and with reasonable promptness under the circumstances:
 - 4.4.1 After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, tender payment therefor to the Owner; or
 - 4.4.2 Deny liability in whole or in part and notify the Owner citing reasons therefor.
5. If the Surety does not proceed as provided in Paragraph 4 with reasonable promptness, the Surety shall be deemed to be in default on this Bond fifteen (15) days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Subparagraph 4.4 and the Owner refuses the payment tendered or the Surety has denied liability, in whole or in part, without further notice the Owner shall be entitled to enforce any remedy available to the Owner.
6. After the Owner has terminated the Contractor's right to complete the Agreement, and if the Surety elects to act under Subparagraph 4.1, 4.2 or 4.3 above, then the responsibilities of the Surety to the Owner shall not be greater than those of the Contractor under the Agreement, and the responsibilities of the Owner to the Surety shall not be greater than those of the Owner under the Agreement. To the limit of the amount of this Bond, the Surety is obligated without duplication for:
 - 6.1 The responsibilities of the Contractor for correction of defective work and completion of the Agreement;
 - 6.2 Additional legal and delay costs resulting from the Contractor's Default and resulting from the actions or failure to act of the Surety under Paragraph 4; and
 - 6.3 Liquidated damages, or if no liquidated damages are specified in the Agreement, actual damages caused by delayed performance or non-performance of the Contractor.
7. The Surety shall not be liable to the Owner or others for obligations of the Contractor that are unrelated to the Agreement. No right of action shall accrue on this Bond to any person or entity other than the Owner or its successors and assigns.
8. The Surety hereby waives notice of any change, including changes of time, to the Agreement or to related subcontracts, purchase orders and other obligations.
9. Any proceeding, legal or equitable, under this Bond may be instituted in any court of competent jurisdiction in the location in which the work or part of the work is located and shall be instituted within two (2) years after Contractor Default or within two (2) years after the Contractor ceased working or within two (2) years after the Surety refuses or fails to perform its obligations under this Bond, whichever occurs first. If the provisions

of this Paragraph are void or prohibited by law, the minimum period of limitation available to sureties as a defense in the jurisdiction of the suit shall be applicable.

10. Notice to the Surety, the Owner or the Contractor shall be mailed or delivered to the address shown on the signature page of this Bond.
11. When this Bond has been furnished to comply with a statutory or other legal requirement in the location where the Agreement was to be performed, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted here from and provisions confirming to such statutory or other legal requirement shall be deemed incorporated herein. The intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

12. Definitions.

12.1 Balance of the Agreement Price: The total amount payable by the Owner to the Contractor under the Agreement after all proper adjustments have been made, including allowance to the Contractor of any amounts received or to be received by the Owner in settlement of insurance or other claims for damages to which the Contractor is entitled, reduced by all valid and proper payments made to or on behalf of the Contractor under the Agreement.

12.2 Agreement: The agreement between the Owner and the Contractor identified on the signature page, including all Agreement Documents and changes thereto.

12.3 Contractor Default: Failure of the Contractor, which has neither been remedied nor waived, to perform or otherwise to comply with any of the terms of the Agreement.

12.4 Owner Default: Failure of the Owner, which has neither been remedied nor waived, to perform or otherwise to comply with the terms of the Agreement or to perform and complete or comply with the other terms hereof.

NOTICE TO EXECUTIVE BRANCH STATE CONTRACTORS AND PROSPECTIVE STATE CONTRACTORS OF CAMPAIGN CONTRIBUTION AND SOLICITATION BAN

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined on the following page):

Campaign Contribution and Solicitation Ban

No *state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor*, with regard to a *state contract or state contract solicitation* with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or *solicit* contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee;

In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

Duty to Inform

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

Civil penalties—\$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of \$2000 or twice the amount of the prohibited contributions made by their principals.

Criminal penalties—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or \$5000 in fines, or both.

Contract Consequences

Contributions made or solicited in violation of the above prohibitions may result, in the case of a state contractor, in the contract being voided.

Contributions made or solicited in violation of the above prohibitions, in the case of a prospective state contractor, shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The State will not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.
