RESOLVED: The Board of Directors approves the Property Division Flow of Funds attached hereto as Exhibit A.

RESOLVED: The Board of Directors approves the establishment of new accounts, closing of existing accounts and redistribution of funds within the Property Division as described in Exhibit B attached hereto.

RESOLVED: The Board of Directors authorizes Authority Management to undertake such actions as described on Exhibits A and B effective as of March 1, 2014.

Exhibit A Connecticut Resources Recovery Authority Property Division Flow of Funds

<u>Total Operating Revenue</u> – Actual receipts of Total Operating Revenue (as described in the adopted Operating Budget for the Property Division) are to be coded to customer and revenue account codes and deposited to the Bank of America Property Division Clearing Account within 1 business day of receipt. Property Division receipts are to be considered "Pledged Revenues" for the purposes of future CRRA bond issuances as designated by the Board of Directors.

<u>Disbursements</u> - Within the first five (5) business days of each month, total receipts held within the Bank of America Property Division Clearing Account as of the last day of the preceding month are to be disbursed to the following accounts, in the following order:

1. To Property Division Operating STIF – Transfer the next month's Total Operating Expense Budget as described in the adopted Operating Budget for the Property Division. For example, Property Division revenue received in the month of January is to be fully disbursed by the 5th business day in February which is to include disbursement of the Property Division's Total Operating Expense Budget for March.

The Property Division Operating STIF is to be used to fund all operating expenses of the Division. The account is to be funded to a maximum of 180 days cash on hand (budget basis) to be assessed and adjusted annually with the start of each fiscal year. Operating expenses of the Property Division include all items of expense reflected in the adopted Total Operating Expense Budget and incurred pursuant to applicable CRRA procurement policies and procedures.

- 2. To Property Division General Fund (STIF) Transfer the balance of all funds remaining within the Property Division Clearing Account. Also transfer any amount due to the CSWS Tip Fee Stabilization Fund pursuant to the CSWS Flow of Funds that would result in an over-funding of the CSWS Tip Fee Stabilization Fund. This account is to be used to further supplement any existing fund established within the Property Division at the direction of the CRRA Board of Directors, for debt service and debt service coverage for authorized CRRA Bond issues.
- 3. To Property Division Improvement Fund STIF From funds available within the Property Division General Fund, transfer the amount equivalent to the next month's Property Division Improvement Fund reserve contribution included in the adopted Operating Budget for Property Division. This account is to be used to pay the eligible cost of approved major maintenance, capital improvement and equipment acquisition projects associated with facilities assigned to the Property Division including the "Jets", Education and Trash Museum at 211 Murphy Road in Hartford, and presently vacant facilities at 171 Murphy Road in Hartford and 1410 Honey Spot Road in Stratford.
- 4. To CSWS Improvement Fund STIF From funds available within the Property Division General Fund, transfer the amount equivalent to the next month's CSWS Improvement Fund reserve contribution included in the adopted Operating Budget for Property Division. This account is to be used to pay

the eligible cost of approved major maintenance, capital improvement and equipment acquisition projects associated with facilities comprising the CSWS Division including Ellington, Essex, Torrington and Watertown transfer stations, the South Meadows Waste Processing Facility and Power Block, Operations Center and Recycling Center at 211 Murphy Road. The CSWS Operating Budget will include direct transfers to this account in addition to any authorized distribution from Property Division revenues.

5. To CSWS Tip Fee Stabilization Fund STIF - Transfer the balance of available funds remaining within the Property Division General Fund. Subject to available funding, this account is to be funded to a maximum value equivalent to \$7.00 for each budgeted Aggregate Ton of MSW (as defined in the Municipal Service Agreements) anticipated to be processed at CSWS in accordance with the adopted Operating Budget for CSWS. The Maximum Tip Fee Stabilization Fund value is to be established with the start of each fiscal year. The CSWS Tip Fee Stabilization Fund is to be used to supplement receipts available in the CSWS Division Clearing Account when such receipts are otherwise insufficient to disburse funds to the CSWS Division Operating STIF and the CSWS Division Debt Service Fund as required by the CSWS Flow of Funds. Each transfer to the CSWS Operating STIF from the Tip Fee Stabilization Fund is to be recorded on CSWS books and records as an amount due to the Tip Fee Stabilization Fund. The CSWS Flow of Funds includes direct transfers back to the Tip Fee Stabilization Fund whenever such amounts remain due.

Request regarding BOARD RESOLUTION REGARDING ADDITIONAL PROJECTED LEGAL EXPENDITURES

February 20, 2014

Executive Summary

This is to request Board authorization of payment of additional projected fiscal '14 legal expenses.

Discussion:

At its May 2013 regular meeting, the Board of Directors approved payment of FY 14 legal fees and expenses from appropriate budgets and reserves, including authorization to pay CRRA's environmental counsel, Brown Rudnick, up to \$85,000 during fiscal 2014. In June 2013, the State Legislature passed Public Act 13-247, directing CRRA to enter into a Memorandum of Understanding with DEEP for the assumption by DEEP of CRRA's obligations regarding its closed landfills. Brown Rudnick has been engaged to represent CRRA in connection with the drafting and negotiating of the MOU and to advise the Board and management regarding potential concerns and exposures.

We are seeking board authorization to incur additional legal expenses in connection with this matter.

WHEREAS, CRRA has engaged its environmental counsel to provide legal advice and assistance with the drafting and negotiation of the required MOU; and

WHEREAS, CRRA expects to incur greater than authorized legal expenses for these services;

NOW THEREFORE, it is

RESOLVED: That the following additional amount be authorized for projected legal fees and costs to be incurred during fiscal year 2014:
